

Introducing Fidium Fiber

Exceptional service

You'll get an exceptional experience – from your first contact to all future interactions

Affordable pricing

Unlike the competition, we won't take more of your budget to deliver less

Sincere support

We'll provide the support you need, sometimes, even before you know you need it

Customer focus

We're dedicated to providing unprecedented connectivity, customization and customer experience

Compassionate assistance

We're understanding of your needs and will assist you every step of the way to come up with solutions

Mobile app – Fidium Attune@Work WiFi fidiumSM

Simple, smart controls

Intelligent WiFi built to empower your business

Fidium's Attune@Work™ WiFi gives you total control of your business WiFi experience without complex setup or IT requirements. Our free, easy-to-use mobile app gives you a 360° view of your entire WiFi network—run a speed test, know who's online, troubleshoot, and set controls with a simple interface at your fingertips 24/7.

Consistent connectivity

Buffering is a bad dream of the past! Ultra-fast, perfectly consistent connectivity across every room.

Secure access

Create secure employee-only access to business WiFi and leverage workforce management tools.

Guest WiFi

Offer a separate WiFi connection your guests can access and turn that customer usage into insights so you can optimize your space.

Small business security

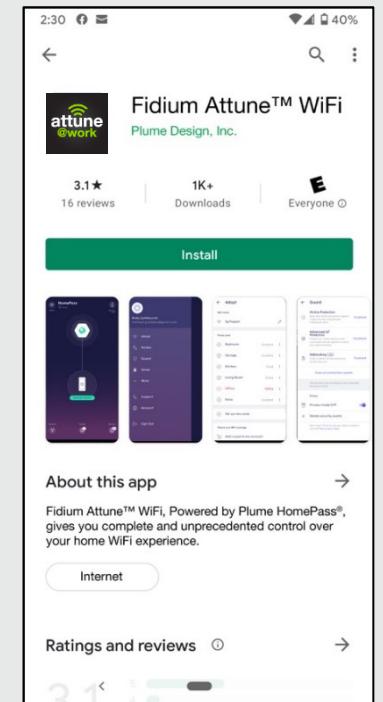

Always-on enterprise-grade security that's tailored to your small business. Filter suspicious activity, quarantine devices that are behaving strangely, and enjoy built-in ad blocking.

Movement detection

Detect movement near each connected device or room on your network. Use it for premise security or to gather motion analytics about how your space is used to optimize your business.

Our easy-to-use business WiFi network app lets you manage it all
